

Discussion on the 2016 Nobel Prizes

A discussion on the scientific discoveries of this year's Nobel Prizes in physics, chemistry and physiology / medicine was held by Universe Science Forum (USF) on 11th October, 2016 in Ahmedabad.

Dr Durgesh Modi spoke on the 2016 Nobel Prize in physiology/ medicine for the discovery of "Mechanisms for autophagy" and also on the 2016 Nobel Prize in Physics for the discovery of "Topological phase transition and topological phases of matter".

Shri Uttam Surapati discussed about the 2016 Nobel Prize in Chemistry for the "Design and synthesis of Molecular machines".

A good number of science loving people participated in the discussion. Dr. Durgesh Modi and Shri Uttam Surapati made the presentations in an interesting and lucid manner. The audience actively interacted with the speakers.
