

A Science Fest was organised in Ravenshaw University on 15 January, 2017 by Bigyana Chetana Mancha, Odisha. In the day long program, students demonstrated experiments and presented posters on green energy and its applications. The program was inaugurated by Prof. Prakash Chandra Sarangi, Vice Chancellor of Ravenshaw University, and Prof. Kamal Kanta Mishra, Vice Chancellor, Utkal University of Culture. Prof. Sarangi discussed about how scientific laws operate in social as well as natural phenomena. Prof. Mishra spoke on the topic "Science and society today".

Through telescope the delegates observed the sun spot. Proper sun filters were used to view the sun safely. In the evening session Prof. Siba Prasad Adhikary, Vice Chancellor Fakirmohan University gave an illustrious talk on the topic "Development of science through ages: Wheel to mobile Apps". He also released the Odia science magazine "Spatika". Prizes were given to the best posters and demonstrations.
