

19-25 June 2015: Summer Camp organized in Allahabad

A weeklong summer camp was organized by Breakthrough Science Society, Allahabad Chapter, in Allahabad from the 19th to the 25th of June at Loha Park of Allapur. Around 45 students participated in the camp. Students learnt science through experiments in the camp. They prepared charts on various scientific issues. The summer camp also included sky watching with telescope and various physical exercises and games. A group of students prepared a number of progressive songs and musical performances also. The camp ended with a programme on the 25th evening in which parents, guardians and local people were invited to see science and musical demonstrations presented by the students. Students also presented an anti-superstition show prepared by them during the camp. The workshop was conducted by Shri Dinesh Mohanta, All India Executive Committee member of Breakthrough Science Society. Mr Ravindrasingh gave physical training, and Mr Devendra and Mr Jugesh helped the musical group prepare songs.
